Any additional comments or suggestions?

26 responses

No

That idea is so amazing

It would be better if we had an integrated system. it can reduce manual work and save so much vaccines

Thank you. more info i will ask for you

Everything is amazing so far

If we get an automated cooling system, which will also provide the real-time condition for our stock will be better.

there is need for real time system

I would love to have real time monitoring system

Lgtm

Thank you

Nice

this system will be helpful for sure

No thanks
